Index of Subjects

Abnormalities:

Medial rectus insertion site in congenital esotropia. Barsoum-Homsy M, 181

Ocular anomalies simulating double optic discs. Donoso LA, et al, 84
 Syndrome d'Aicardi: un cas possiblement dû à la rubéole congénitale. Orquin J, 200

Visual results after removal of congenital cataracts before the age of 1 year. Pratt-Johnson JA, et al, 19

Academies and institutes:

The Eye Centre of the University of British Columbia and the Vancouver General Hospital (E). Drance SM, 111

The Ivey Institute of Ophthalmology (E). Dyson C, 111

Acetylsalicylic acids: see Aspirin

Aicardi's syndrome:

Syndrome d'Aicardi: un cas possiblement dû à la rubéole congénitale. Orquin J, 200

Alagille's syndrome: see Arteriohepatic dysplasia

Albinism:

X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121

Allergies: see Hypersensitivity

Amblyopia:

Visual results after removal of congenital cataracts before the age of 1 year. Pratt-Johnson JA, et al, 19

Aminoglycosides:

Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 79

Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22

Anesthesia, general:

Factors modifying vitreous pressure in cataract surgery. Guindon B, et al, 73

Anisometropia:

Visual results after removal of congenital cataracts before the age of 1 year. Pratt-Johnson JA, et al, 19

Anterior chamber:

Effects on the corneal endothelium of anterior chamber reconstituents instilled during intracapsular cataract extraction. Lang RM, et al, 70

Glaucoma par fermeture transitoire de l'angle consécutif à une thrombose de la veine centrale de la rétine. Brouillette G, et al, 43

Antibiotics:

Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 79

Antioxidants:

Modelling cortical cataractogenesis: 2. In vitro effects on the lens of agents preventing glucose- and sorbitol-induced cataracts. Trevithick JR, et al, 32

Antireflective agents:

Improved contrast sensitivity with antireflective coated lenses in the presence of glare. Coupland SG, et al, 136

Increased visual field area with antireflective coated lenses in the presence of glare. Kirkham TH, et al, 141

Aphakia:

The aphakic correction (E). Milder B, 57

The aphakic correction: an optician's view (E). Kingsmill CD, 169

Aqueous humour:

Effects on the corneal endothelium of anterior chamber reconstituents instilled during intracapsular cataract extraction. Lang RM, et al, 70

Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 79

Arteriohepatic dysplasia:

Ocular findings in arteriohepatic dysplasia (Alagille's syndrome). Romanchuk KG, et al, 94

Aspirin:

Senile cataracts: evidence for acceleration by diabetes and deceleration by salicylate. Cotlier E, 113

Autograft: see Transplantation, autologous

Basement membrane:

Distribution of silver in the eyes and plasma proteins of the albino rat. Matuk Y, et al, 145

Biopsy:

X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121

Bowen's disease: see Carcinoma, squamous cell

Brain neoplasms:

Meningioma and the ophthalmologist: diagnostic pitfalls. Anderson D, et al, 10

Canadian Journal of Ophthalmology:

Information for authors. 52, 109, 159, 205

Canadian National Institute for the Blind:

Referring patients to the CNIB (C). Muller C, 208

Canadian Ophthalmological Society:

Canadian Ophthalmological Society. 44th Annual Meeting. Montreal, 21-24 June 1981: scientific program. 54, 103

Carcinoma, epidermoid: see Carcinoma, squamous cell

Carcinoma in situ:

Corneal epithelial dysplasia and carcinoma in situ. Cruess AF, et al, 171

Carcinoma, squamous cell:

Corneal epithelial dysplasia and carcinoma in situ. Cruess AF, et al, 171

Cataract extraction:

The aphakic correction (E). Milder B, 57

Effects on the corneal endothelium of anterior chamber reconstituents instilled during intracapsular cataract extraction. Lang RM, et al, 70

Factors modifying vitreous pressure in cataract surgery. Guindon B, et al, 73

Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22

Cataracts:

Modelling cortical cataractogenesis: 2. In vitro effects on the lens of agents preventing glucose- and sorbitol-induced cataracts. Trevithick JR, et al, 32

Senile cataracts: evidence for acceleration by diabetes and deceleration by salicylate. Cotlier E, 113

Visual results after removal of congenital cataracts before the age of 1 year. Pratt-Johnson JA, et al, 19

Cellulitis:

Periorbital and orbital cellulitis in childhood. Noel LP, et al, 178

Chemiluminescent material:

Chemiluminescent evaluation of the human lacrimal outflow system. Raffo GT, et al, 30

Cholestasis:

Ocular findings in arteriohepatic dysplasia (Alagille's syndrome). Romanchuk KG, et al, 94

Ciliary processes:

Distribution of silver in the eyes and plasma proteins of the albino rat. Matuk Y, et al, 145

CNIB: see Canadian National Institute for the Blind

Coloboma:

Ocular anomalies simulating double optic discs. Donoso LA, et al, 84

Computerized tomography:

Clinical application of multiplanar computerized tomography of the orbit. Nicolle DA, et al, 124

Confidentiality:

Referring patients to the CNIB (C). Muller C, 208

Congenital defects: see Abnormalities

Conjunctival diseases:

Les pterygions récidivants: fréquence et correction par autogreffe conjonctivale. Dowlut MS, et al, 119

Conjunctivitis:

Impression cytology in conjunctivitis. Hershenfeld S, et al, 76

Ocular immunology: a review (first of two parts). Jackson WB, et al, 3

- Cornea:**
Effects on the corneal endothelium of anterior chamber reconstituents instilled during intracapsular cataract extraction. Lang RM, et al, 70
- Corneal diseases:**
Corneal epithelial dysplasia and carcinoma in situ. Cruess AF, et al, 171
- Correction:**
Cell-mediated immunity to lens proteins in rats. Brinkman CJJ, et al, 51
- Cyalume:** see Chemiluminescent material
- Cysts:**
Lipid granuloma of the frontal bone presenting as a space-occupying lesion of the orbit. Raflo GT, et al, 153
- Cytologic techniques:**
Impression cytology in conjunctivitis. Hershenfeld S, et al, 76
- Cytomegalic inclusion disease:**
End-stage cytomegalic inclusion retinitis and disseminated intravascular coagulation. Pearce WG, et al, 88
- Cytotoxicity, immunologic:**
Ocular immunology: a review (second of two parts). Jackson WB, et al, 59
- Dentistry:**
Bacterial endophthalmitis and traumatic hyphema resulting from ocular injuries during dental procedures. Folk JC, et al, 151
- Diabetes mellitus:**
Modelling cortical cataractogenesis: 2. In vitro effects on the lens of agents preventing glucose- and sorbitol-induced cataracts. Trevithick JR, et al, 32
Senile cataracts: evidence for acceleration by diabetes and deceleration by salicylate. Cotlier E, 113
- Diagnosis:**
Clinical application of multiplanar computerized tomography of the orbit. Nicolle DA, et al, 124
Impression cytology in conjunctivitis. Hershenfeld S, et al, 76
- Diagnostic errors:**
Meningioma and the ophthalmologist: diagnostic pitfalls. Anderson D, et al, 10
- Disseminated intravascular coagulation:**
End-stage cytomegalic inclusion retinitis and disseminated intravascular coagulation. Pearce WG, et al, 88
- Drug antagonism:**
Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 69
- Drug evaluation:**
Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22
- Drug therapy:**
Enhancement and inhibition of phagocytic activity in the retinal pigment epithelium. Markowitz S, et al, 187
Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22
- Electro-oculography:**
Electroretinography and nystagmus: subtraction of eye movement artefact. Coupland SG, et al, 192
- Electroretinography:**
Electroretinography and nystagmus: subtraction of eye movement artefact. Coupland SG, et al, 192
- Endophthalmitis:**
Bacterial endophthalmitis and traumatic hyphema resulting from ocular injuries during dental procedures. Folk JC, et al, 151
Meningococcal endophthalmitis without meningitis. Brinser JH, et al, 100
Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22
- Endothelium:**
Effects on the corneal endothelium of anterior chamber reconstituents instilled during intracapsular cataract extraction. Lang RM, et al, 70
- Epiphora:**
Use of Lester Jones tubes: a review of 40 cases. Hurwitz JJ, et al, 176
- Epithelium:**
Enhancement and inhibition of phagocytic activity in the retinal pigment epithelium. Markowitz S, et al, 187
- Equipment and supplies:**
Premarket review of intraocular lenses (E). Cooper MT, et al, 1
- Esotropia:**
Management of nonrefractive accommodative esotropia (C). Bisenman WW, et al, 163
See Strabismus
- Evaluation studies:**
Premarket review of intraocular lenses (E). Cooper MT, et al, 1
- Exotropia:**
Consecutive exotropia after correction of hyperopia. Beneish R, et al, 16
- Exotropia, intermittent:**
Surgical results in intermittent exotropia. Clarke WN, et al, 66
- Eye abnormalities:**
Ocular anomalies simulating double optic discs. Donoso LA, et al, 84
- Eye, artificial:**
Premarket review of intraocular lenses (E). Cooper MT, et al, 1
- Eye diseases:**
Clinical application of multiplanar computerized tomography of the orbit. Nicolle DA, et al, 124
Ocular immunology: a review (second of two parts). Jackson WB, et al, 59
- Eye injuries:**
Bacterial endophthalmitis and traumatic hyphema resulting from ocular injuries during dental procedures. Folk JC, et al, 151
- Eye movements:**
Electroretinography and nystagmus: subtraction of eye movement artefact. Coupland SG, et al, 192
- Eye neoplasms:**
Corneal epithelial dysplasia and carcinoma in situ. Cruess AF, et al, 171
Extramedullary plasmacytoma of the orbit: case report with results of immunocytochemical studies. Khalil MK, et al, 39
- Fluorescein angiography:**
Tapioca melanoma of the iris: clinicopathological correlation with results of fluorescein angiography. Price MJ, et al, 195
- Forthcoming meetings:**
Forthcoming Meetings: 49, 106, 166, 209
- Frontal bone:**
Lipid granuloma of the frontal bone presenting as a space-occupying lesion of the orbit. Raflo GT, et al, 153
- Funduscopy:**
X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121
- Glaucoma:**
Effect of timolol maleate on intraocular pressure and pupil cycle time in normal eyes. Kirkham TH, et al, 132
Glaucoma par fermeture transitoire de l'angle consécutif à une thrombose de la veine centrale de la rétine. Brouillette G, et al, 43
- Gentamicins:**
Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22
- Granuloma:**
Lipid granuloma of the frontal bone presenting as a space-occupying lesion of the orbit. Raflo GT, et al, 153
- Hereditary diseases:**
X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121
- Hospitals:**
The Eye Centre of the University of British Columbia and the Vancouver General Hospital (E). Drance SM, 111
The Ivey Institute of Ophthalmology (E). Dyson C, 111
- Hyperopia:**
Consecutive exotropia after correction of hyperopia. Beneish R, et al, 16

- Hypersensitivity:**
 Ocular immunology: a review (first of two parts). Jackson WB, et al, 3
 Ocular immunology: a review (second of two parts). Jackson WB, et al, 59
- Hyphema:**
 Bacterial endophthalmitis and traumatic hyphema resulting from ocular injuries during dental procedures. Folk JC, et al, 151
- Immune complex disease:**
 Ocular immunology: a review (second of two parts). Jackson WB, et al, 59
- Immunoenzyme techniques:**
 Extradurallary plasmacytoma of the orbit: case report with results of immunocytochemical studies. Khalil MK, et al, 39
- Immunoglobulin:**
 Ocular immunology: a review (first of two parts). Jackson WB, et al, 3
- Immunology:**
 Ocular immunology: a review (first of two parts). Jackson WB, et al, 3
 Ocular immunology: a review (second of two parts). Jackson WB, et al, 59
- Impression techniques:** see Cytologic techniques
- Information aux auteurs:**
 Information aux Auteurs. 53, 110, 160, 206
- Information for authors:**
 Information for Authors. 52, 109, 159, 205
- Informed consent:**
 Referring patients to the CNIB (C). Muller C, 208
- Injections, subconjunctival:**
 Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 79
- Intraocular pressure:**
 Effect of timolol maleate on intraocular pressure and pupil cycle time in normal eyes. Kirkham TH, et al, 132
 Factors modifying vitreous pressure in cataract surgery. Guindon B, et al, 73
 Glaucoma par fermeture transitoire de l'angle consécutif à une thrombose de la veine centrale de la rétine. Brouillette G, et al, 43
- Iris diseases:**
 Tapioca melanoma of the iris: clinicopathological correlation with results of fluorescein angiography. Price MJ, et al, 195
- Ivey Institute of Ophthalmology:**
 The Ivey Institute of Ophthalmology (E). Dyson C, 111
- Journal canadien d'ophtalmologie:**
 Information aux Auteurs. 53, 110, 160, 206
- Jurisprudence:**
 Canadian law and the ophthalmologist. Freeman GM, et al, 100
 Vicarious liability and the ophthalmologist. Freeman GM, et al, 203
- Lacrimal apparatus:**
 Chemiluminescent evaluation of the human lacrimal outflow system. Raflo GT, et al, 30
 Use of Lester Jones tubes: a review of 40 cases. Hurwitz JJ, et al, 176
- Lacrimal duct obstruction:**
 Chemiluminescent evaluation of the human lacrimal outflow system. Raflo GT, et al, 30
 Use of Lester Jones tubes: a review of 40 cases. Hurwitz JJ, et al, 176
- Legislation, medical:**
 The law of negligence and the ophthalmologist. Freeman GM, et al, 156
 Canadian law and the ophthalmologist. Freeman GM, et al, 100
- Lens disease:**
 Modelling cortical cataractogenesis: 2. In vitro effects on the lens of agents preventing glucose- and sorbitol-induced cataracts. Trevithick JR, et al, 32
- Lenses:**
 The aphakic correction (E). Milder B, 57
 The aphakic correction: an optician's view (E). Kingsmill CD, 169
 Improved contrast sensitivity with antireflective coated lenses in the presence of glare. Coupland SG, et al, 136
- Lenses, intraocular:**
 Factors modifying vitreous pressure in cataract surgery. Guindon B, et al, 73
 Premarket review of intraocular lenses (E). Cooper MT, et al, 1
 Lester Jones tubes: see Prosthesis
- Lipids:**
 Lipid granuloma of the frontal bone presenting as a space-occupying lesion of the orbit. Raflo GT, et al, 153
 Loop recession: see Suture techniques
- Magnesium fluoride:**
 Increased visual field area with antireflective coated lenses in the presence of glare. Kirkham TH, et al, 141
 Improved contrast sensitivity with antireflective coated lenses in the presence of glare. Coupland SG, et al, 136
- Medial rectus insertion sites:**
 Medial rectus insertion site in congenital esotropia. Barsoum-Homsy M, 181
- Medical devices:** see Equipment and supplies

 The Eye Centre of the University of British Columbia and the Vancouver General Hospital (E). Drance SM, 111
 The Ivey Institute of Ophthalmology (E). Dyson C, 111
 Research in ophthalmology. Basu PK, 207
- Optic disc:**
 Ocular anomalies simulating double optic discs. Donoso LA, et al, 84
- Optic nerve diseases:**
 Ocular anomalies simulating double optic discs. Donoso LA, et al, 84

Orbital diseases:

Clinical application of multiplanar computerized tomography of the orbit. Nicolle DA, et al, 124

Periorbital and orbital cellulitis in childhood. Noel LP, et al, 178

Orbital neoplasms:

Extramedullary plasmacytoma of the orbit: case report with results of immunocytochemical studies. Khalil MK, et al, 39

Lipid granuloma of the frontal bone presenting as a space-occupying lesion of the orbit. Raflo GT, et al, 153

Paranasal sinus diseases:

Periorbital and orbital cellulitis in childhood. Noel LP, et al, 178

Pediatrics:

Periorbital and orbital cellulitis in childhood. Noel LP, et al, 178

Penicillins:

Inactivation of aminoglycoside-penicillin combinations after subconjunctival injection. Ellis PP, et al, 79

Personnel management:

Vicarious liability and the ophthalmologist. Freeman GM, et al, 203

Phagocytosis:

Enhancement and inhibition of phagocytic activity in the retinal pigment epithelium. Markowitz S, et al, 187

Physician-patient relations:

Canadian law and the ophthalmologist. Freeman GM, et al, 100

Physicians' assistants:

Vicarious liability and the ophthalmologist. Freeman GM, et al, 203

Pigments:

X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121

Plasmacytoma:

Extramedullary plasmacytoma of the orbit: case report with results of immunocytochemical studies. Khalil MK, et al, 39

Professional-patient relations:

Vicarious liability and the ophthalmologist. Freeman GM, et al, 203

Propanolamines:

Effect of timolol maleate on intraocular pressure and pupil cycle time in normal eyes. Kirkham TH, et al, 132

Prosthesis:

Use of Lester Jones tubes: a review of 40 cases. Hurwitz JJ, et al, 176

Protein:

Distribution of silver in the eyes and plasma proteins of the albino rat. Matuk Y, et al, 145

Pterygium:

Les pterygions récidivants: fréquence et correction par autogreffe conjonctivale. Dowlut MS, et al, 119

Pupil cycle time:

Effect of timolol maleate on intraocular pressure and pupil cycle time in normal eyes. Kirkham TH, et al, 132

Reconstituents: see Aqueous humour

Refractive errors:

Consecutive exotropia after correction of hyperopia. Beneish R, et al, 16

Refraction, ocular:

The aphakic correction (E). Milder B, 57

The aphakic correction: an optician's view (E). Kingsmill CD, 169

Refractometry:

The aphakic correction (E). Milder B, 57

Research:

The Eye Centre of the University of British Columbia and the Vancouver General Hospital (E). Drance SM, 111

The Ivey Institute of Ophthalmology (E). Dyson C, 111

Research in ophthalmology. Basu PK, 207

Research institutes: see Academies and institutes

Retinal diseases:

End-stage cytomegalic inclusion retinitis and disseminated intravascular coagulation. Pearce WG, et al, 88

Ocular findings in arteriohepatic dysplasia (Alagille's syndrome). Romanchuk KG, et al, 94

Retinal pigments:

Enhancement and inhibition of phagocytic activity in the retinal pigment epithelium. Markowitz S, et al, 187

Retinal vein:

Glaucoma par fermeture transitoire de l'angle consécutif à une thrombose de la veine centrale de la rétine. Brouillette G, et al, 43

Retinal vessels:

Distribution of silver in the eyes and plasma proteins of the albino rat. Matuk Y, et al, 145

Retinitis:

End-stage cytomegalic inclusion retinitis and disseminated intravascular coagulation. Pearce WG, et al, 88

Rubella:

Syndrome d'Aicardi: un cas possiblement dû à la rubéole congénitale. Orquin J, 200

Salicylates:

Senile cataracts: evidence for acceleration by diabetes and deceleration by salicylate. Cotlier E, 113

Sensitivity, contrast:

Improved contrast sensitivity with antireflective coated lenses in the presence of glare. Coupland SG, et al, 136

Sex chromosomes:

X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121

Silver:

Distribution of silver in the eyes and plasma proteins of the albino rat. Matuk Y, et al, 145

Societies, medical: see Canadian National Institute for the Blind

Strabismus:

Consecutive exotropia after correction of hyperopia. Beneish R, et al, 16

Extraocular muscle recession with a suture loop in dogs. Lang RM, et al, 27

Medial rectus insertion site in congenital esotropia. Barsoum-Homsy M, 181

Surgical results in intermittent exotropia. Clarke WN, et al, 66

Surgery:

Surgical results in intermittent exotropia. Clarke WN, et al, 66

Suture techniques:

Extraocular muscle recession with a suture loop in dogs. Lang RM, et al, 27

Tendons:

Extraocular muscle recession with a suture loop in dogs. Lang RM, et al, 27

Thrombosis:

Glaucoma par fermeture transitoire de l'angle consécutif à une thrombose de la veine centrale de la rétine. Brouillette G, et al, 43

Timolol: see Propanolamines

Transillumination:

X-linked ocular albinism: relative value of skin biopsy, iris transillumination and funduscopy in identifying affected males and carriers. Cortin P, et al, 121

Transplantation, autologous:

Les pterygions récidivants: fréquence et correction par autogreffe conjonctivale. Dowlut MS, et al, 119

Tryptophan:

Senile cataracts: evidence for acceleration by diabetes and deceleration by salicylate. Cotlier E, 113

Universities:

The Eye Centre of the University of British Columbia and the Vancouver General Hospital (E). Drance SM, 111

The Ivey Institute of Ophthalmology (E). Dyson C, 111

Visual acuity:

Improved contrast sensitivity with antireflective coated lenses in the presence of glare. Coupland SG, et al, 136

Increased visual field area with antireflective coated lenses in the presence of glare. Kirkham TH, et al, 141

Visual field:

Increased visual field area with antireflective coated lenses in the presence of glare. Kirkham TH, et al, 141

Vitamin E:

Modelling cortical cataractogenesis: 2. In vitro effects on the lens of

- agents preventing glucose- and sorbitol-induced cataracts. Trevi-thick JR, et al, 32
- Vitreous body:
Factors modifying vitreous pressure in cataract surgery. Guindon B, et al, 73
- Netilmicin: new aminoglycoside effective against bacterial endophthalmitis. Sloane H, et al, 22

- Wounds and injuries:
Bacterial endophthalmitis and traumatic hyphema resulting from ocular injuries during dental procedures. Folk JC, et al, 151
- X-chromosomes: see Sex chromosomes
